

Better News Sources: Are you listening to Fake News?

Much of this article is from THINK magazine, Oct. 2006, FocusPress.org Also see MiraculousBible.org

Listed below are some much more reliable news sources on specific topics that affect your life. Did you realize that over 70% of Americans claim to be Christians? Yet the former **New York Times reporter** Steve Roberts, on CNN's Reliable Sources, March 27, 2005 said, "I worked for the New York Times for 25 years. **I could probably count on one hand, in the Washington bureau of the New York Times, people who would describe themselves as people of faith....**"

"Of course it is (*biased*) ...These are the social issues: gay rights, gun control, abortion and environmental regulation, among others. **And if you think The Times plays it down the middle on any of them, you've been reading the paper with your eyes closed.**" **New York Times Public Editor** Daniel Okrent in a July 25, 2004 column.

Intentional fake news or innocent mistakes? All reporters sometimes make mistakes. But who would you rather get your news from: groups that have a fear of God, or groups that have no fear of God? 150 years ago in many states, you could **not take the witness stand** in a court of law, unless you believed in the God of the Bible. Why? Because the law said if you did not fear God then you had no real fear of lying. After all, **if God does not exist, why not lie to get what you want?** So which news organizations do not have a fear of lying? The ones that do not fear God. So which media organizations have the highest percentage of fake news? Same answer, the ones that do not fear God.

No wonder politics looks so dirty. One group that ignores God has the media defending them, and the other group that has some fear of God has the vast majority of the media attacking them. Most Americans do not know which news sources are reliable. Educate yourself on the media's bias and select sources that at least fear God. Government is supposed to be the servant of God in dealing with evil doers (*Romans 13*). But who reports on the government?

"Where I work at ABC, people say 'conservative' the way people say 'child molester.'" **ABC 20/20 co-anchor** John Stossel to CNSNews.com reporter Robert Bluey, in a story posted January 28, 2004. (*ABC has No fear of God*)

In a 1985 survey of journalists (*reporters and editors*) from 621 papers across the country by the Los Angeles Times, 82 percent favored abortion, 67 percent opposed prayer in public schools, and 78 percent wanted strict gun control. Again, these numbers do not represent the general public. (*Journalists: They have No fear of God.*)

George Barna and William Paul McKay published *Vital Signs: Emerging Social Trends and the Future of American Christianity* in 1984. They report from a **1983 study**, which showed that **75 percent of television executives claimed to be politically "liberal."** **Only 7 percent** attended church regularly and 44 percent stated that they had no religious affiliation. **80 percent stated that homosexuality was not wrong.** **51 percent** did not think **adultery** was wrong. A whopping **97 percent approved of abortion.** One can only wonder if those statistics are even worse 34 years later.

Warning: *most of these have several soul damaging doctrinal errors. But at least they have some fear of God. Fearing God causes these sources to often admit their mistakes and to be more careful with the facts. But ABC, NBC, CBS, New York Times, etc. do not even begin to fear God.*
